

# Emergency Plan Guide

We hope you enjoyed a pleasant and safe Thanksgiving - and are **prepared for our upcoming winter season!**

What could happen? The most likely:

**Storm, wind, power outage, earthquake –  
What if you were trapped in your car for  
hours before you could get home?**

## Protect yourself and your family

### Keep your car in good condition.

- Do tires have plenty of tread? Are they properly inflated?
- Do windshield wipers work? What about washer fluid?
- Is fuel tank at least half full of gas?

### Have emergency supplies in every car.

- Phone & phone charger
- Survival kit with snacks and water
- Extra shoes and warm clothes (particularly for children)
- First aid kit
- Flashlight and flares
